

NOT-NIETZSCHE

TRUTH REFUTATION & MISCEGENATION

Bob Hanna

T-REASON

So too the neo-Nietzschean logic skeptic asks: why must she be logical¹, if the very² idea³ of logical⁴ truth or consequence⁵ is nothing⁶ but⁷ a product⁸ of the will to power⁹ and thus¹⁰ socially constructed¹¹.

So too the neo-Nietzschean logic skeptic asks: why must she be logical, if the very idea of logical truth or consequence is nothing but a product of the will to power and thus socially constructed. So there.

1 She doesn't must.

2 Very is one of only five adjectives that make you sound smart

3 Light bulbs have an off switch, you know.

4 Meaning?

5 Well, which is it, truth or consequence?

6 It seems an awfully big fuss to make about nothing.

7 There is always a but.

8 Oh, so the will to power makes products now, does it? Are these in the shops?

9 Just so long as it does not involve fracking.

10 When I see the word thus I reach for my revolver.

11 That's right, blame everybody. Typical.
