ABOUT *BORDERLESS PHILOSOPHY*

Borderless Philosophy, aka **BP**, which started publication in 2018 and publishes yearly in June, is an absolutely unique philosophy journal, which publishes works of philosophy *without any in-principle restrictions whatsoever* as to length, philosophical content or topic, presentational format, or language. **BP's only** criteria of selection are (i) that the work be of genuine interest to philosophers or any other philosophically-minded person and (ii) that the work be generally accessible to non-academics as well as professional academics, with a minimum of scholarly apparatus. **BP** publishes in English but also in any other language, alongside English translations—with the translations to be arranged by authors, but edited by the journal's Editorial Team. And **BP** is online and universal free-access, here: <https://www.cckp.space/>
